"Rock'n the Classroom" GEOVENTURE PROGRAM

For Educators

August 14 — 19, 2017

SMA
Saskatchewan
Mining Association

SASKATCHEWAN TEACHERS:

ARE YOU LOOKING FOR A UNIQUE PROFESSIONAL DEVELOPMENT OPPORTUNITY THIS SUMMER?

We are looking for you!

The Saskatchewan Mining Association (SMA) is ***Exploring for Educators*** interested in learning about Saskatchewan mineral resources and related links to curriculum.

GeoVenture Program Highlights include:

- ½ day introductory workshop
- Flight to and site tour of uranium mining operation
- Site tours of conventional underground potash mine and surface solution potash mine
- Site tour of coal mine
- Field stop at Potash Interpretative Centre & Grasslands National Park
- Free curriculum – correlated resources
- Great networking opportunity

"This was by far the most enjoyable most educational and most rewarding professional development activity I have ever been a part of, What a great opportunity!"

Cost: This trip is ***FULLY SPONSORED*** by the SMA (ie all travel, accommodation and meal costs during the trip are covered). If you are selected to participate, your only cost is a $50 registration fee.

Application: Send a **letter of application via email** that includes your teaching background (# of years of experience, grade level, subject matter, why you are interested) as well as personal and school contact information (school name, location, telephone, email) to: **education@saskmining.ca**

Deadline for applications is May 31, 2017.
Space is limited to 24 participants.

Visit www.saskmining.ca for additional information.
