

Orano Canada Inc. 2023 Exploration

Stephanie Forseille
Coordinator, SHEQ Exploration

Introduction

Orano has been exploring in the Athabasca Basin for over 50 years.

Exploration represents the future of Orano's operations; it is the first step in the development of uranium mines. Our exploration team invests time in the field data, surveying, reviewing and logging drill core in the quest to discover the next economical deposit.

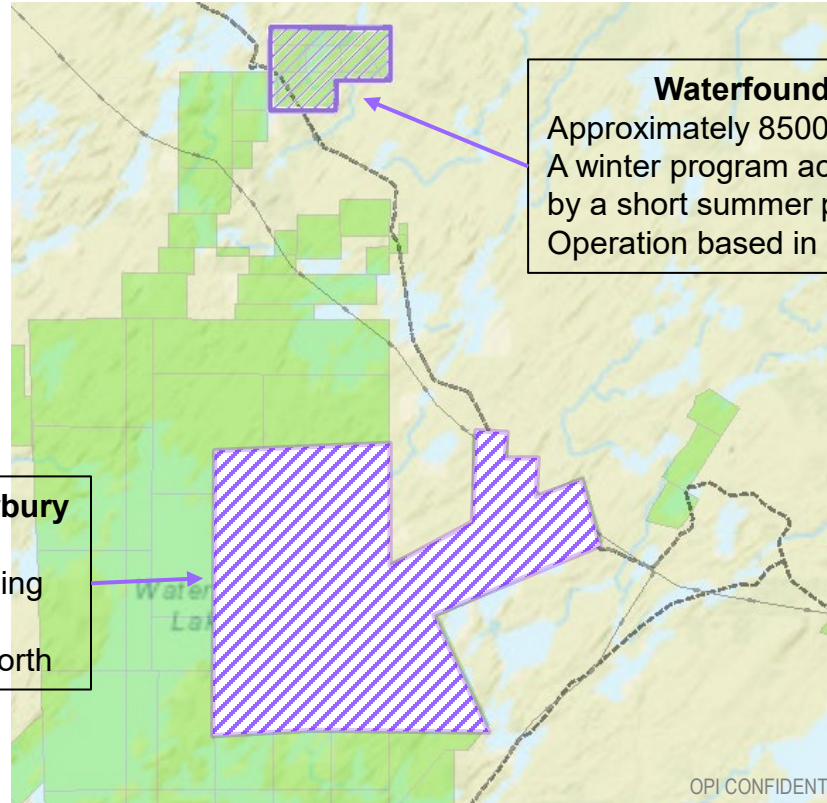

2023 Exploration-Drilling

- **Three programs utilizing three drills**
