

### SASKATCHEWAN TEACHERS:

**ARE YOU LOOKING FOR A UNIQUE PROFESSIONAL DEVELOPMENT OPPORTUNITY THIS SUMMER?**

***We are looking for you!***

The Saskatchewan Mining Association (SMA) is **Exploring for Educators** interested in learning about Saskatchewan mineral resources and related links to curriculum.

**GeoVenture Program** Highlights include:

- ½ day introductory workshop
- Flight to and site tour of uranium mining operation
- Site tours of conventional underground potash mine and surface solution potash mine
- Site tour of coal mine
- Field stop at Potash Interpretative Centre & Grasslands National Park
- Free curriculum – correlated resources
- Great networking opportunity

***“This was by far the most enjoyable most educational and most rewarding professional development activity I have ever been a part of, What a great opportunity!”***

**Cost:** This trip is **FULLY SPONSORED** by the SMA (ie all travel, accommodation and meal costs during the trip are covered). If you are selected to participate, your only cost is a \$50 registration fee.

**Application:** Send a **letter of application via email** that includes your teaching background (# of years of experience, grade level, subject matter, why you are interested) as well as personal and school contact information (school name, location, telephone, email) to: [education@saskmining.ca](mailto:education@saskmining.ca)

**Deadline for applications is June 3, 2019.**  
Space is limited to 24 participants.

Visit [www.saskmining.ca](http://www.saskmining.ca) for additional information. Check out the 2018 teachers GeoVenture blog at <http://saskmining.ca/Mines-in-Saskatchewan/GeoVenture-Blog>
