John T. Ryan Trophy - Background

- ▶ Named the John T. Ryan Trophy in honour of the founder of Mine Safety Appliances (MSA) who donated the award to the Canadian Institute of Mining, Metallurgy and Petroleum (CIM) in 1941
- ▶ The mining industry is divided into three mining sections: metal mines, select mines and coal mines. There is one “Canada National Trophy” for each of these sectors.
- ▶ For metal mines, the industry is divided into four geographical regions: British Columbia and Yukon; the Prairie Provinces and Northwest Territories; Ontario; Quebec and the Maritime Provinces. There is one “Regional Trophy” for each of these regions.
- ▶ For select mines, the industry is divided into two regions; Manitoba and the western provinces and territories; Ontario and the eastern provinces. There is one “Regional Trophy” for each of these regions.

The background features abstract, overlapping green geometric shapes in various shades of green, primarily located on the right side of the slide. The text is centered on the left side of the slide.
