

SASKATCHEWAN METALLIC MINERALS

A snapshot of Saskatchewan's metallic minerals industry in 2023.

Gold's many uses include dentistry, jewellery, medical and electronic applications. Base metals, including copper, are essential for electrification.

Saskatchewan has one producing gold mine, SSR Mining's Seabee Gold Operation, located approximately 125 kms northeast of La Ronge.

Hudbay Minerals' Cu-Zn facility in Creighton-Flin Flon completed mining the orebodies in 2022 and are currently in the process of safely decommissioning and reclaiming the former mine site.
